

Margot's Magical Winter Wonder Party

Art & Design Activity

Stick Puppets!

Margot's Magical Winter Wonder Party makes a great use of puppets.

Join in the fun by making some of your own! These simple stick puppets are easy to make and decorate allowing for maximum creativity and fun!

Step 1

Print the template overleaf onto card. If this isn't possible, print out on paper and stick onto card.

Step 2

Either pre-cut out a template for each child, or allow them to cut their own.

Step 3

Attach a lolly stick onto the back of the template and secure with a small piece of tape.

Step 4

Decorate! Use whatever materials are easily available - we used a mixture of paint, felt tips, stickers, washi tape and collage materials.

Once the puppets are finished, the children can improvise a short scene in pairs or small groups!
